

SonicStreams.TV

Software Installation Guide for Amazon FireTV Stick

Introduction

SonicStreams.TV the world's largest and most reliable IPTV/OTT streaming platform, delivering nearly 3000 TB in streaming content per month to thousands of customers around the globe.

A simple user interface and an extensive collection of HD channels offer us the most satisfactory IPTV service in the USA, Canada, Latin America, and the UK. We broadcast thousands of live channels to stream premium HD content. Our existing customers praise the quality of the content we deliver through our IPTV service.

SonicStreams TV lets you watch TV anywhere. We all know how annoying it could be when you want to download an app, software, or program and you can't seem to find it on your Amazon firestick options. Hence, we made this guide to assist you in downloading and navigating through SonicStreams TV for Amazon Fire TV Stick with ease.

Downloading

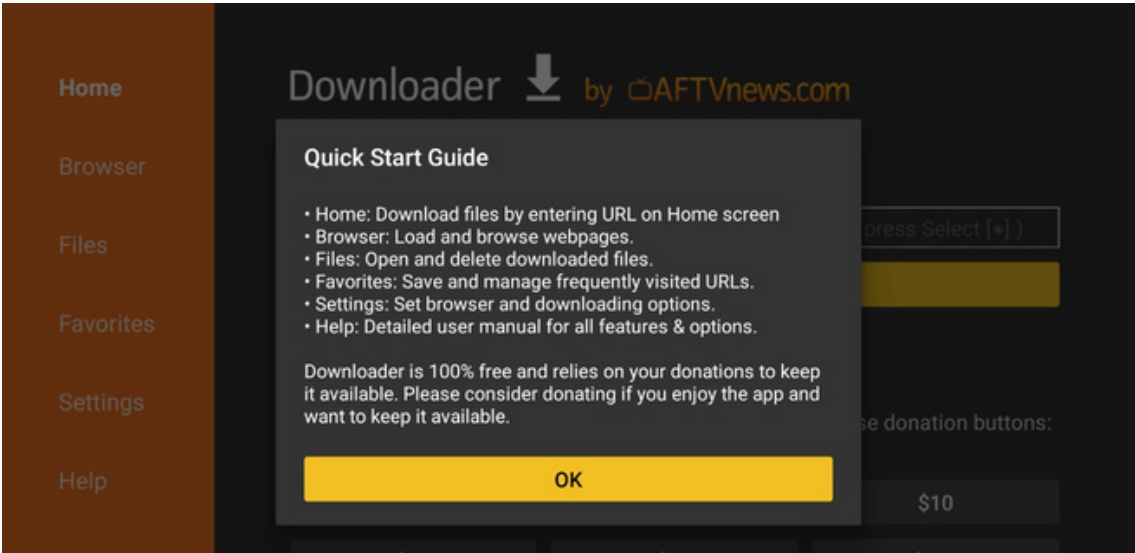

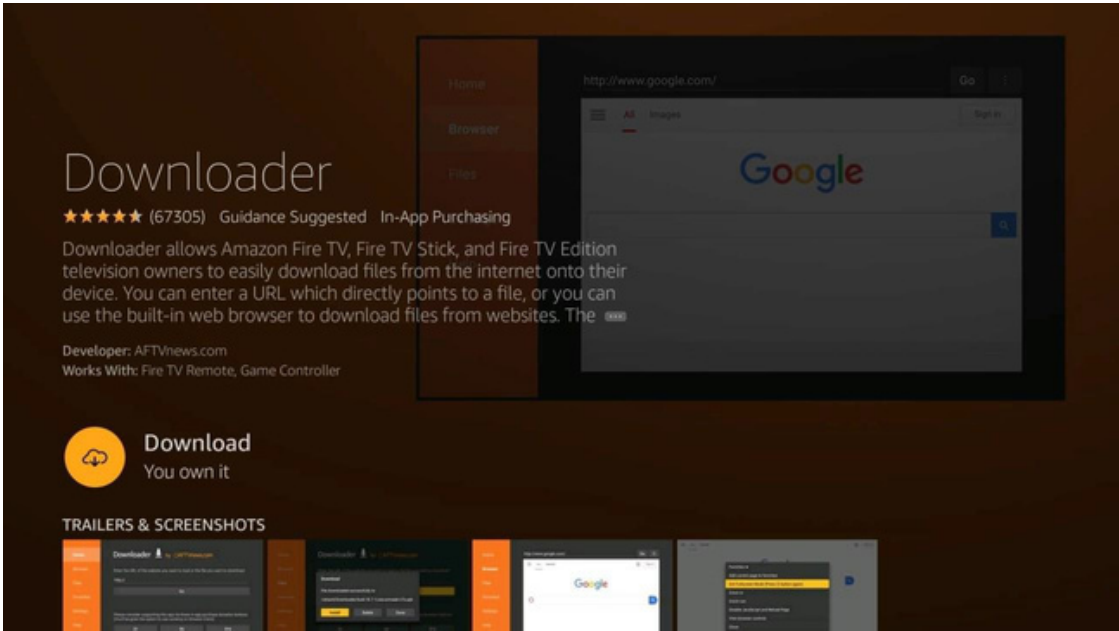

Installing apps that are not available in the Amazon Appstore, also known as sideloading apps, on Amazon Fire TV devices varies slightly depending on the model you are using.

This guide covers how to sideload the SonicStreams TV APK on all models, including Fire TV boxes, Firestick, Fire TV Cubes, Fire TV Edition televisions, the new 2020 Fire TV Stick 3, and Fire TV Stick Lite.

Here are quick and easy steps to Download and Install SonicStreams TV on your Amazon Fire TV stick.

STEP 1: Install Downloader App

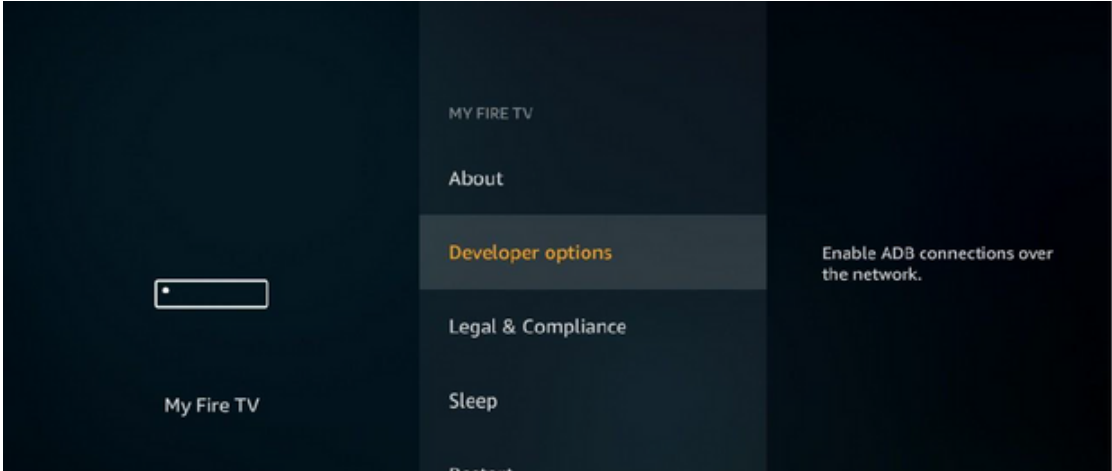

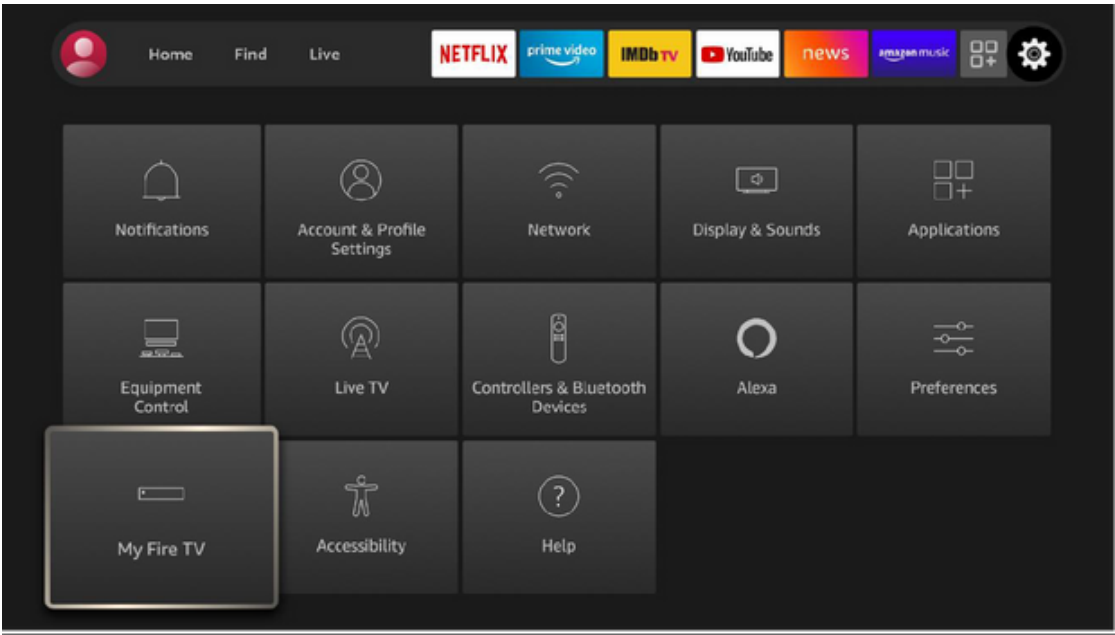

Search for and install the Downloader App from the Amazon Appstore. Once the app is installed, please do **NOT** open it yet.

STEP 2: Go to Developer Options in Settings.

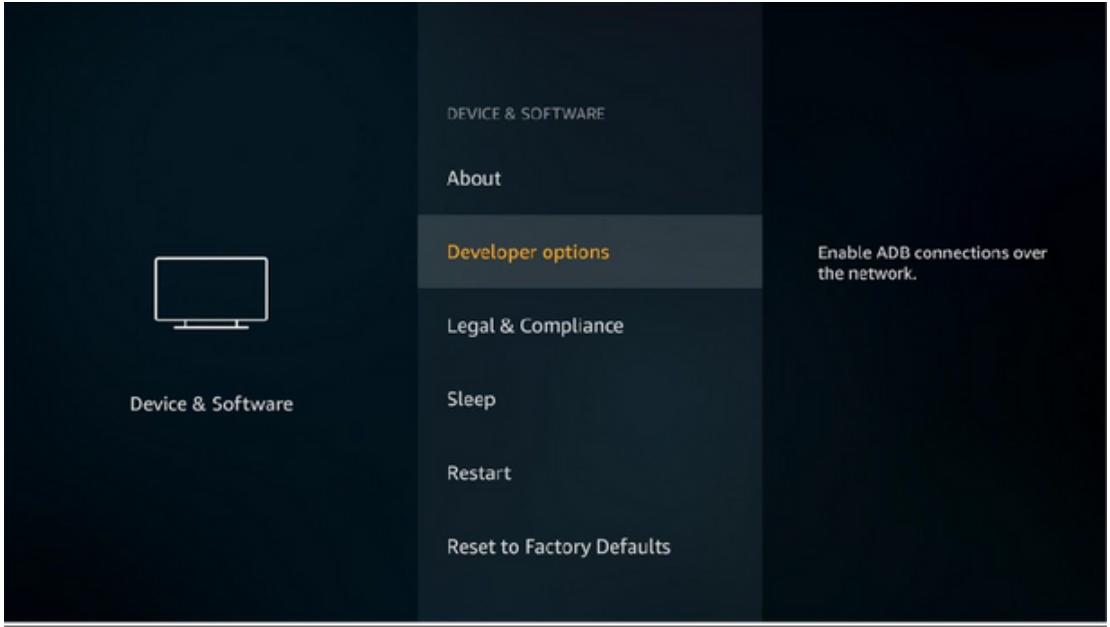

Now that Downloader is installed, and you haven't launched it yet, you need to change a setting on your device.

If you have any Fire TV box, Fire TV Stick, Fire TV Stick 4K, or Fire TV Cube, navigate to *Settings > My Fire TV > Developer Options*

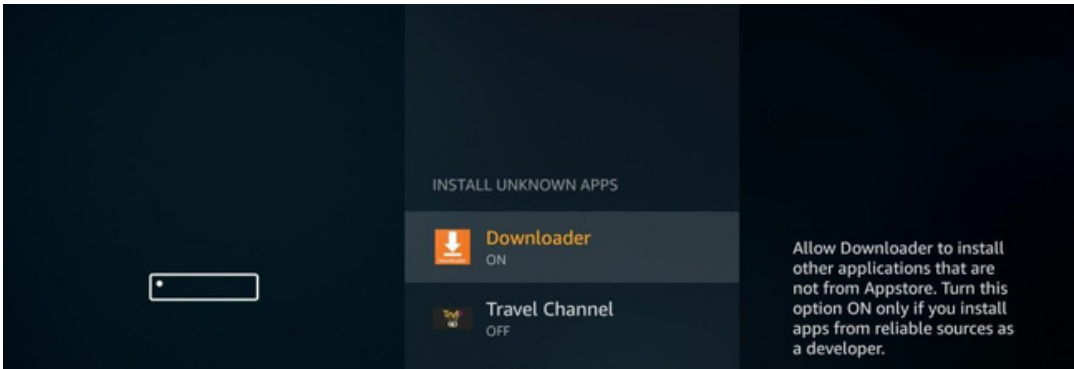

If you have any Fire TV Edition television, navigate to *Settings > Device & Software > Developer Options*

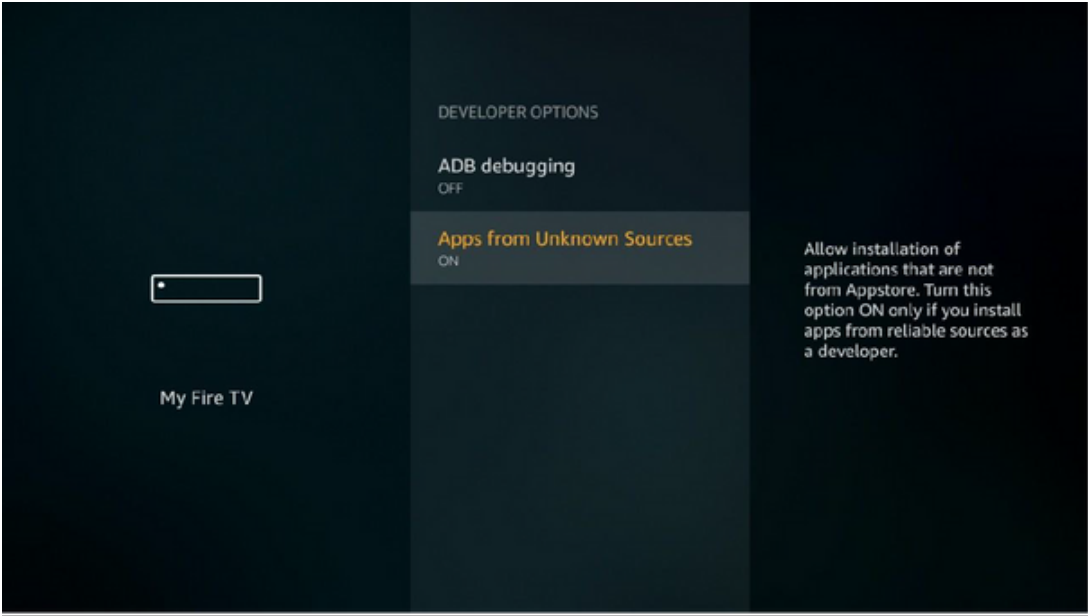

STEP 3: Enable Apps from Unknown Sources

If you have a Fire TV Cube 2nd Gen, Fire TV Stick 3rd Gen, Fire TV Stick Lite, Fire TV Edition televisions by Grundig & JVC, or 2020 Fire TV Edition televisions by Toshiba & Insignia, select the 'Install unknown apps option,' scroll to *Downloader*, and change its setting to "ON".

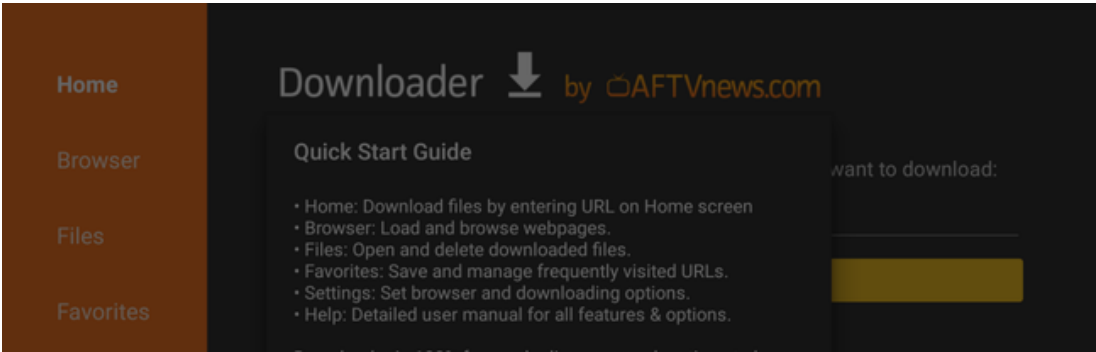

If you have a Fire OS 5 or Fire OS 6 device, including all other devices, select *Apps from Unknown Sources* to change the setting to *ON*.

STEP 4: Open Downloader and Grant Storage Permission

Now, go to your list of apps on the Fire TV Home screen and open the Downloader app. If you have a Fire OS 6 or Fire OS 7 device, you will be asked to allow Downloader access to files on your device as soon as you launch the app. Select *Allow*.

STEP 5: Enter URL and Download the SonicStreams.TV APK file

Enter the code 262205 in the downloader url box

and select the *Go* button.

Because the URL is direct to the APK file, the file will begin to download. Use the circular UP/DOWN/LEFT/RIGHT buttons to find or enter the download link and click it by using the center select button on your remote.

STEP 6: Install SonicStreams.tv

After the APK file downloads, you will be asked to install the app. Press Down and Right on the remote a few times until the *Install* button is highlighted. Press the center Select button on the remote to begin installing the app and select *Done* when it's finished installing.

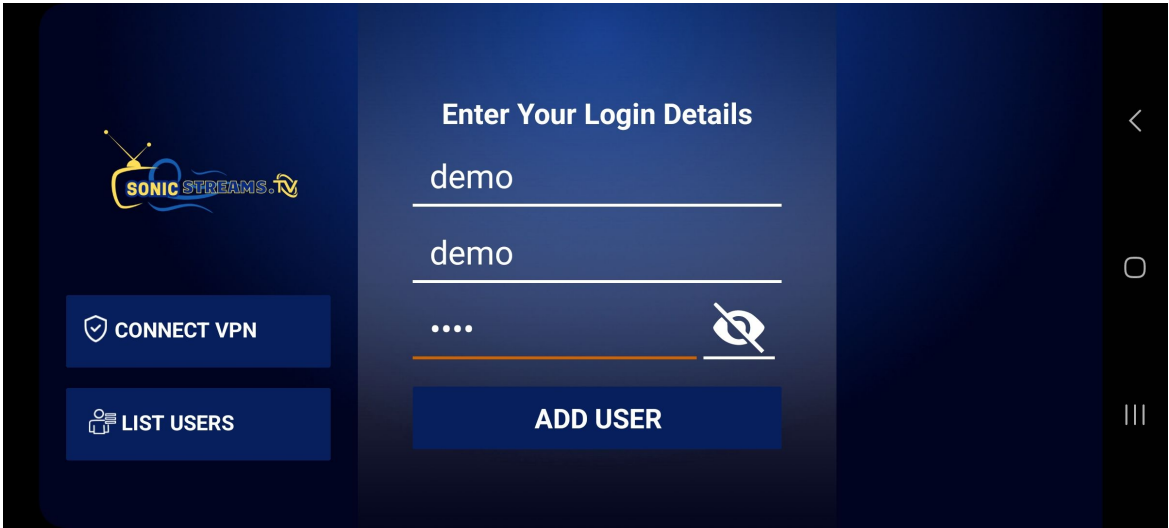

STEP 7: Open the Sideloaded SonicStreams.TV App

You're done and you can now launch the SonicStreamsTV app. To do so, go to your list of apps by pressing the home button on your remote control and selecting the *Apps* option. You will see the SonicStreams app, go ahead and select it.

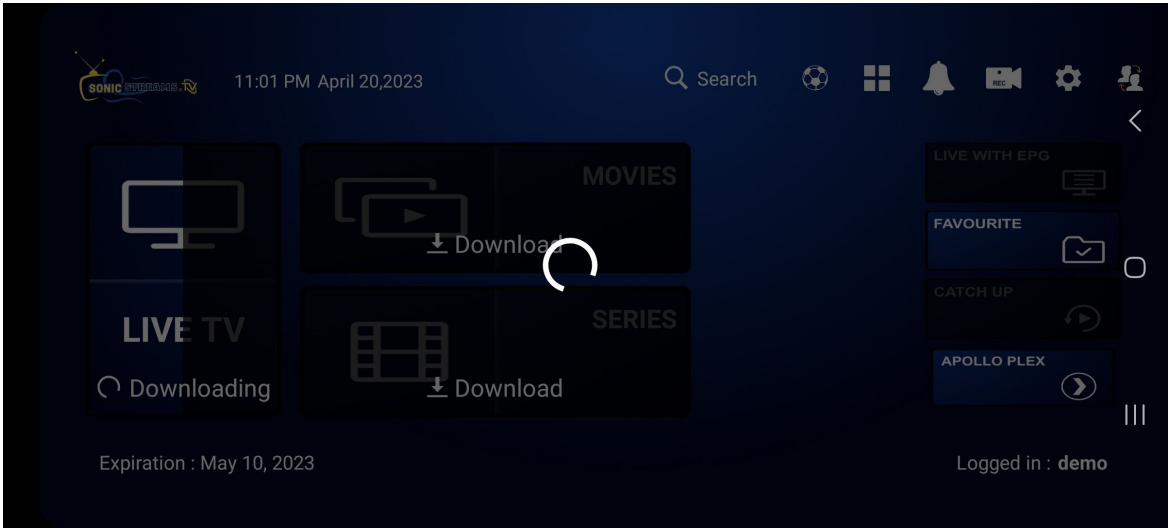

1. Enter log-in details by typing in your username and password details provided to you after the purchase.

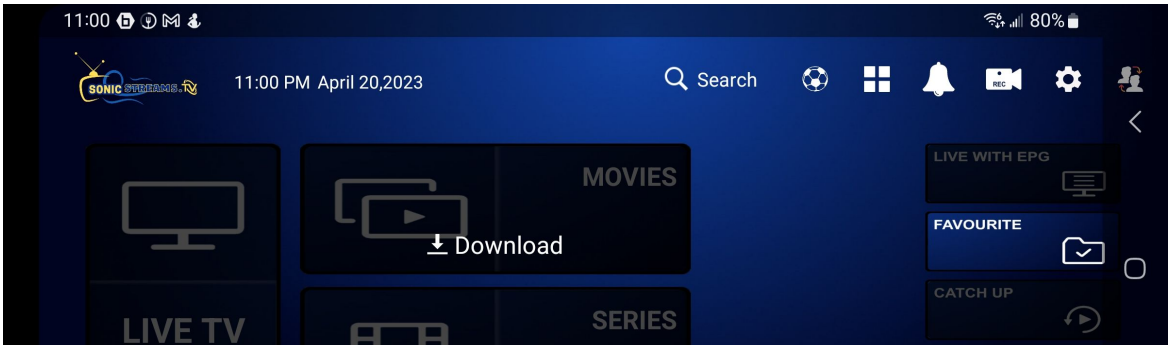

1. **Login**

2. After you have and created an account on our website, you are now ready to use it for the first time.

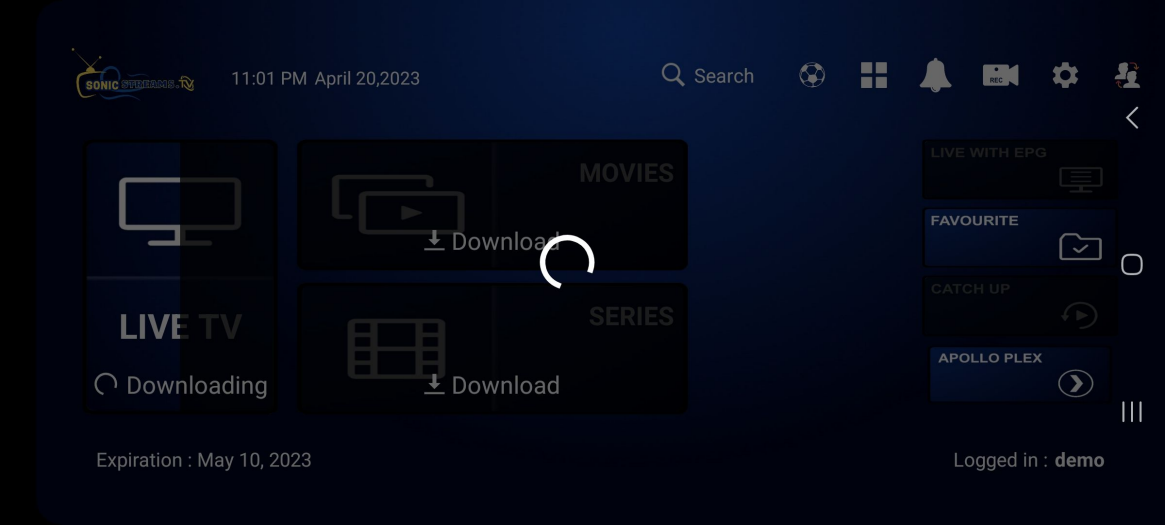

1. Immediately after login, a white screen appears saying 'Please wait, while we are getting things ready for the first time' and 'Downloading Channels, Movies and Series'.

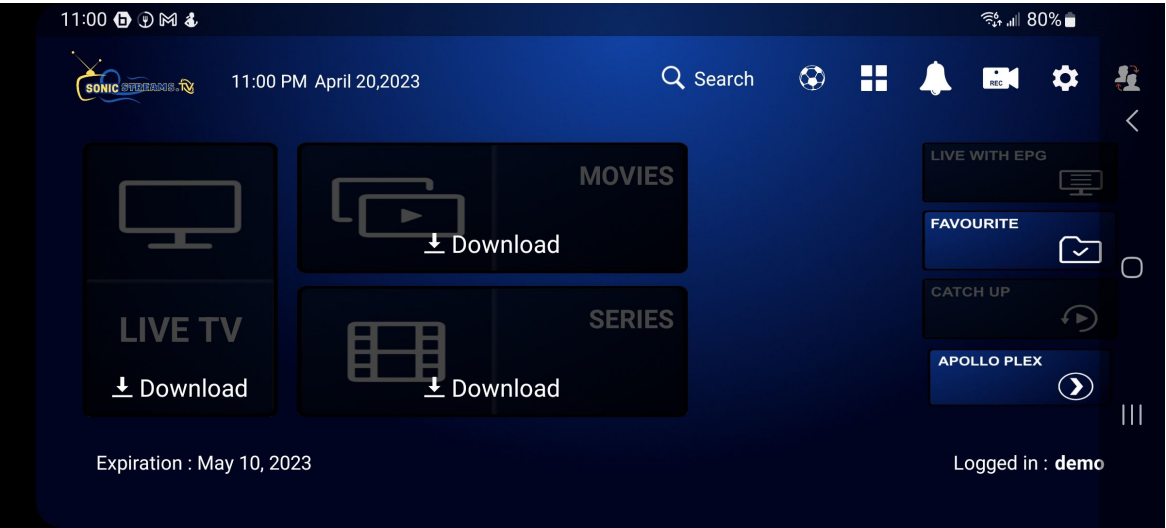

After the channels, movies and series have downloaded, then the TV Guide also downloads.

After that it takes you directly to the home screen.

Home Screen

Options available for your perusal and entertainment include Live TV, movies, series, catch-up, multi-screen, and settings.

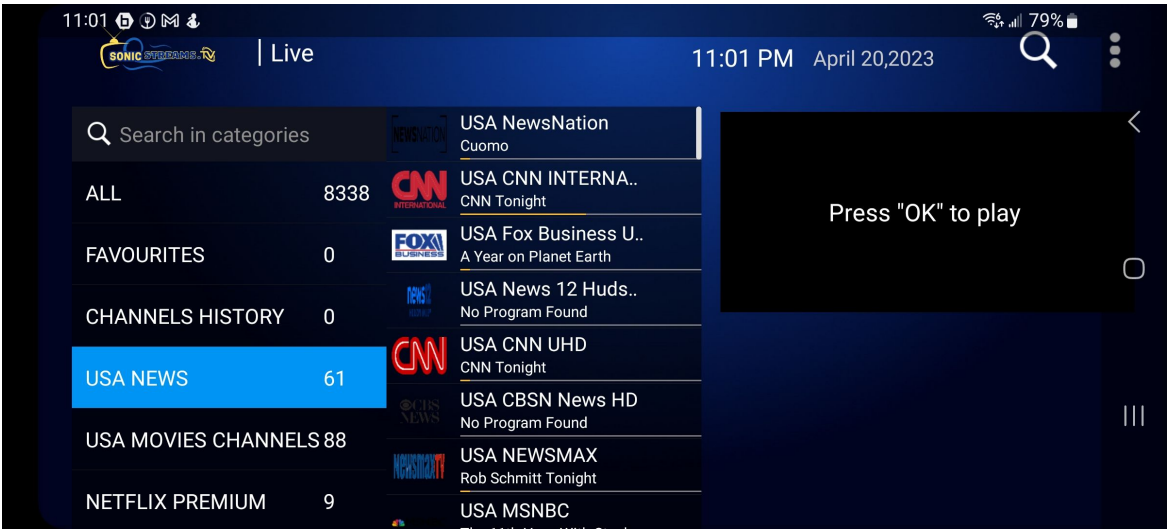

The application consists of the following buttons and information:

- **Date And Time**
- **Notifications**
- **Account Info**
- **Recordings**
- **Settings**
- **Logout**
- **Live TV**
- **Movies**
- **Series**
- **Install EPG**
- **Multi-screen**
- **Catch up**
- **Subscription Expiration**

Live TV

Enjoy 18,000+ Live TV channels online with SonicStreams TV in HD. Watch your favorite TV shows, news, and sports channels. To stream and watch a channel, tap on the desired channel category.

The first channel on the list will automatically play by default.
